

# WINCHESTER

RIFLES AND SHOTGUNS

## SX4 CAMO MOBUC

### DESCRIPTION

The camo pattern on this semi-automatic shotgun prevents the glint and glare that scares birds. This model also includes the chrome-plated bore and chamber that protects all SX4 guns against projectile wear. It is fitted with wider Inflex Technology recoil pads than its SX3 predecessor for shooting comfort - and it is all the more pleasant with a 12 gauge in the chamber.
